

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

U.S. DOT Docket Number NHTSA-2014-0040

Reports, Forms, and Recordkeeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), U.S. Department of Transportation.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The Federal Register Notice with a 60-day comment period was published on April 11, 2014 (79 FR 20967).

DATES: Comments must be submitted to OMB on or before [INSERT 30 DAYS FROM DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, OMB, 725 17th Street, N.W., Washington, DC, 20503, Attention: Desk Officer.

FOR FURTHER INFORMATION CONTACT: Alex Ansley, Recall Management Division (NVS-215), Room W46-412, NHTSA, 1200 New Jersey Ave., Washington, DC 20590.

Telephone: (202) 493-0481.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the Federal Register providing a 60-day comment period and otherwise

consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation, see 5 CFR 1320.8(d), an agency must ask for public comment on the following:

- i) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- ii) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- iii) how to enhance the quality, utility, and clarity of the information to be collected; and
- iv) how to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following collection of information:

Title: Petitions for Hearings on Notification and Remedy of Defects.

Type of Request: Extension of a currently approved information collection.

OMB Control Number: 2127-0039.

Affected Public: Businesses or others for profit.

Abstract: Sections 30118(e) and 30120(e) of Title 49 of the United States Code specify that any interested person may petition NHTSA to hold a hearing to determine whether a manufacturer of motor vehicles or motor vehicle equipment has met its obligation to notify

owners, purchasers, and dealers of vehicles or equipment of a safety-related defect or noncompliance with a Federal motor vehicle safety standard in the manufacturer's products and to remedy that defect or noncompliance.

To implement these statutory provisions, NHTSA promulgated 49 CFR part 557, Petitions for Hearings on Notification and Remedy of Defects. Part 557 establishes procedures providing the submission and disposition of petitions for hearings on the issues of whether the manufacturer has met its obligation to notify owners, purchasers, and dealers of safety-related defects or noncompliance, or to remedy such defect or noncompliance free of charge.

Estimated annual burden: During NHTSA's last renewal of this information collection, the agency estimated it would receive one petition a year, with an estimated one hour of preparation for each petition, for a total of one burden hour per year. That estimate remains unchanged with this notice.

Number of respondents: 1.

Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is most effective if OMB receives it within 30 days of publication.

Frank Borris
Director, Office of Defects Investigation
